# REDEFINING SENIOR LIVING

More than 30 years of experience have taught us that today's seniors want more choices and are leading a more active lifestyle than generations before. That's why we're creating a community filled with options, from affordable studio apartments to spacious two-bedroom suites, great cuisine and an active lifestyle of growth and discovery. It's all part of our culture of choice.

**IT'S NOT WHAT YOU'D EXPECT, AND THAT'S THE WHOLE POINT.**

# AN OPTION FOR EVERY APPETITE

When you think of dining in a retirement community, do you envision your meals expertly prepared by a skilled chef and graciously served by friendly, attentive staff? At The Watermark at Trinity you'll discover just that, plus the comfortable elegance of a fine restaurant with china, sparkling crystal and fresh linens. Our ever-changing menu features an array of flavorful, nutritious meals with optional wine service, prepared by trained chefs with an eye for presentation. Plus, with Thrive Dining™, individuals with cognitive or neuromuscular challenges can enjoy their favorite foods without assistance, utensils or distractions.

# A NEW KIND OF MEMORY CARE

At The Watermark at Trinity, we're borrowing from the traditions of the multigenerational households and local bed and breakfasts to create a place where everyone feels right at home. Meals are cooked right in the kitchen, and anyone can roll up their sleeves to help prepare the meal. Just like home, this household revolves around the kitchen table, where food and conversation connect residents, associates, friends and family.

# MEET THE NAYAS

The word *Naya* comes from the ancient language of Classical Sanskrit and is based on being engaged in the present moment. A *Naya* is a guide, person of wisdom, conductor and leader. These terms truly define our caregivers. In perfect alignment with our universal care model, being mindfully engaged in each moment cultivates a sense of well-being, community, spontaneity and creativity.

In traditional senior-living models, care is divided between several associates who interact with a resident only within their particular area of limited duties. This not only results in reduced continuity, it prevents associates from seeing the big picture of each resident's well-being. Because our *Nayas* spend the day with residents, they notice the early signs of concern that might otherwise go unseen. *Nayas* know if residents have a good appetite, how well they slept and when they last exercised or participated in a new program. They can observe how individuals react to a change in type or dosage of medicine or a new therapy. Understanding the big picture results in a healthier, happier, more connected lifestyle.
